Report on the financial statements

We have audited the accompanying consolidated financial statements of the Braille Institute of America, Inc. (the “Institute”), which comprise the consolidated statement of financial position as of June 30, 2017, and the related consolidated statements of activities and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management’s responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Institute’s preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Institute’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Braille Institute of America, Inc. as of June 30, 2017, and the changes in their net assets and their cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other matters

Report on 2016 summarized comparative information

We have previously audited the Institute's 2016 consolidated financial statements, and we expressed an unmodified audit opinion on those audited consolidated financial statements in our report dated September 2, 2016. In our opinion, the accompanying summarized comparative information as of and for the year ended June 30, 2016 is consistent, in all material respects, with the audited financial statements from which it has been derived.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the year ended June 30, 2017
(In Thousands)

NOTE 1 - INSTITUTE AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Institute

Braille Institute of America, Inc. (the “Institute”) is a private, nonprofit institute offering its programs and services at no charge to legally blind men, women and children of all ages. Its educational training, programs and services are directed toward one primary objective – helping those who have lost or never had the gift of sight to lead full, productive lives.

The Institute receives financial support through individual contributions, bequests and foundation grants. Community groups also assist significantly through sponsorship of many events and activities.

Basis of Reporting

The consolidated financial statements include the Institute and Braille Institute of America, Inc. Charitable Gift Annuity Fund (the “Fund”) and beneficial interests in charitable trusts.

Basis of Accounting

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“US GAAP”).

Net Assets

The Institute reports information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets and permanently restricted net assets.

Unrestricted Net Assets

Unrestricted net assets are not subject to donor-imposed stipulations. The only limits on unrestricted net assets are the broad limits resulting from the nature of the Institute and the purposes specified in its articles of incorporation or bylaws and, perhaps, limits resulting from contractual agreements. Unrestricted net assets include Board-designated funds and realized and unrealized investment gains and losses.

Temporarily Restricted Net Assets

These are net assets resulting from contributions and other inflows of assets whose use by the Institute is limited by donor-imposed stipulations that expire by passage of time or can be fulfilled and removed by actions of the Institute pursuant to those stipulations. All temporarily restricted net assets are available for general time restrictions related to program activities.

Net Assets (continued)

Permanently Restricted Net Assets

These are net assets resulting from contributions and other inflows of assets whose use by the Institute is limited by donor-imposed stipulations that neither expire by passage of time nor can be fulfilled or otherwise removed by actions of the Institute. All permanently restricted net assets are available for endowment.

Non-Operating

Non-operating revenues and expenses include all realized and unrealized gains and losses on investments, change in value of beneficial interest in trusts and change in the pension liability. All other activity is classified as operating revenue and expense.

Donated Services

Many individuals have donated time and services to advance the Institute's programs and objectives. In some instances, the value of these services has not been recorded in the consolidated financial statements because they do not meet the requirements for recognition under US GAAP. While the value of donated labor is not reflected in the accompanying consolidated financial statements, the financial results of fund-raising and other activities are included.

Cash and Cash Equivalents

Short-term investments with an original maturity of three months or less at the time of purchase are considered to be cash equivalents. Short-term investments with an original maturity greater than three months are included in investments. Cash and cash equivalents are reported at cost, which approximates fair value. The Institute maintains cash in various financial institutions that periodically, and as of year-end, exceeds federally insured limits of \$250. Management does not consider this concentration to be a significant credit risk. Certain items which meet the definition of cash equivalents but are part of a larger pool of investments are included in marketable investment securities.

Marketable Investment Securities

Marketable investment securities include bond and equity mutual funds, money market funds and bond mutual funds, are valued at fair value. Interest and dividends are accrued as earned or declared. Investments which are valued at net asset value ("NAV") do not have any future commitments, redemption or lock up periods.

Investments for Gift Annuity Contracts

Investments for gift annuity contracts include U.S. Treasury bills and government bonds with maturities of one year or more. These investments are valued at fair value. The fair values of investments in securities traded on national securities exchanges are valued at the closing price on the last business day of the fiscal year; securities traded on the over-the-counter market are valued at the last reported bid price.

Inventories

Inventories consist of store merchandise and press department materials. Inventories are valued at the lower of cost or market on a first-in, first-out (“FIFO”) basis.

Long-Term Other Investments

Long-term other investments are carried at the lower of cost or market value, except for oil and gas lease rights, which are carried at nominal values due to uncertainties inherent in any valuation of future royalty revenues.

In accordance with Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 958, *Not-for-Profit Entities: Scope – Investments*, the Institute records all in-kind donations at their fair value at the time of donation and the Institute continues to report in-kind donations at their carrying value or cost, including oil and gas interests.

Impairment of Long-Lived Assets

Management reviews each asset or asset group for impairment whenever events or circumstances indicate that the carrying value of an asset or asset group may not be recoverable. The review of recoverability is based on management’s estimate of the undiscounted future cash flows that are expected to result from the asset’s use and eventual disposition. These cash flows consider factors such as expected future operating income, trends and prospects, as well as, the effects of competition and other factors. If an impairment event exists due to the projected inability to recover the carrying value of an asset or asset group, an impairment loss is recognized to the extent that the carrying value exceeds estimated fair value. No impairment was recorded by the Institute during the year ended June 30, 2017.

Beneficial Interest in Trusts

The Institute is also a beneficiary of irrevocable split-interest agreements, consisting primarily of charitable remainder trusts and charitable lead trusts administered by other trustees. A receivable is recorded at the estimated fair value of the amount held by the trustee that is due to the Institute. The Institute uses an interest rate commensurate with the risks involved to discount the contribution receivable. The amortization of this discount and changes in assumptions are reflected in the consolidated statement of activities as a change in value of beneficial interest.

Land, Buildings and Equipment

Additions to land, buildings and equipment are recorded at cost. Donated assets are recorded at fair value at the time of donation. Fixed assets are stated at cost less accumulated depreciation.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, forty years for the building, generally three to ten years for furniture, equipment and vehicles. The Institute's policy is to capitalize all asset improvements in excess of \$5 that extend the useful life or increase the utility of the property.

Taxes

The Institute was organized pursuant to the General Nonprofit Corporation Law of the State of California. The Institute has been recognized by the Internal Revenue Service as an organization that is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. The Institute has also been recognized by the California Franchise Tax Board as an organization that is exempt from California franchise and income taxes under Section 23701d of the California Revenue and Taxation Code. However, the Institute is subject to income taxes on income that is derived from a trade or business, regularly carried on, and not in furtherance of the purposes for which it was granted exemption. Since the Institute had no obligation for unrelated business income tax for the year ended June 30, 2017, no provisions for federal or state income taxes are required.

Tax positions taken related to the Institute's tax exempt status, unrelated business activities taxable income and deductibility of expenses and other miscellaneous tax positions have been reviewed, and management is of the opinion that material positions taken by the Institute would more likely than not be sustained by examination. Accordingly, the Institute has not recorded an income tax liability for uncertain tax benefits as of June 30, 2017 and no material change is anticipated for the 12 months following June 30, 2017. As of June 30, 2017, the Institute's federal returns for the tax years ended June 30, 2014 through June 30, 2016 and state returns for June 30, 2013 through June 30, 2016 remain open and subject to examination. Returns for the period ended June 30, 2017 will be filed by the statutory due dates.

Summarized Information

The consolidated financial statements include certain prior-year summarized consolidated financial information in total, but not by net asset category. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the Institute's consolidated financial statements for the year ended June 30, 2016, from which the summarized information was derived.

Use of Estimates

The preparation of the consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses. While management believes that these estimates are adequate as of June 30, 2017, it is possible that actual results could differ from those estimates.

Functional Expense Reporting

The costs of providing program and supporting services have been summarized by function, based on estimates developed by management.

Accounts Receivable Valuation

Accounts receivable are considered by management to be fully collectible.

Revenue and Expense Recognition

Contributions, including unconditional promises to give, are recognized as revenue in the period received and are reported as increases in the appropriate class of net assets. Contributions where donor restrictions are met within the same fiscal year as the contribution is received are included in unrestricted net assets. Conditional promises to give are not recognized until they become unconditional, that is, when the conditions on which they depend are substantially met. Contributions of assets other than cash are recorded at their estimated fair value. Contributions to be received after one year are discounted at an appropriate discount rate.

An allowance for uncollectible contributions is estimated based upon such factors as prior collection history, type of contribution and nature of fundraising activity. Expenses are recognized when incurred.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)*. The guidance specifically clarifies how investments valued using the net asset value (NAV) practical expedient within the fair value hierarchy should be classified. The ASU was issued in order to address diversity in practice. The amended standard’s key position exempts investments measured using the NAV practical expedient from categorization within the fair value hierarchy and related disclosures. The new guidance is effective for the Institute for the year ended June 30, 2017, with early adoption permitted. This ASU has no impact on the Institute’s financial statements.

In August 2016, FASB issued Accounting Standards Update ASU 2016-14, *Presentation of Financial Statements of Not-for-Profit Entities (Topic 958)*. The guidance is intended to improve how a not-for-profit (NFP) entity classifies its net assets, as well as the information it presents in its financial statements about its liquidity, financial performance and cash flows. The main provisions of this update require an NFP to do the following:

- Present net assets in two classes instead of three – net assets with donor restrictions and net assets without donor restrictions.
- Continue to present the statement of cash flows using either direct or indirect methods but no longer require the presentation of the indirect method (reconciliation) if using the direct method.
- Provide enhanced disclosures about:
 - Amounts and purposes of governing board designations;
 - Composition of net assets with donor restrictions and how the restrictions affect the use of resources;
 - Qualitative information about how an NFP manages its liquid resources;
 - Qualitative information about the availability of financial assets;
 - Expenses in both their natural and functional classes;
 - Description of cost allocation methods; and
 - Information about underwater endowments disclosing the NFP’s policy, aggregate fair value of the funds, aggregate value of the original gift amount and aggregate amount by which the funds are underwater.

Recent Accounting Pronouncements (continued)

- Report investment return net of external and direct internal investment expenses without disclosure of the netted expenses.
- Use of the “placed-in-service” approach for reporting restriction releases for gifts used to acquire or construct long-lived assets.

The new guidance is effective for annual reporting periods beginning after December 15, 2017. The Institute is in the process of evaluating the impact of this standard on its operations.

NOTE 2 - CASH AND CASH EQUIVALENTS

A summary of the composition of cash and cash equivalents follows:

NOTE 3 - MARKETABLE INVESTMENT SECURITIES AND INVESTMENTS IN GIFT
ANNUITY CONTRACTS - Continued

A summary of the composition of investments in gift annuity contracts follows:

	June 30,	
	2017	2016
Fixed income funds	\$ 2,345	\$ 2,157
Real Estate funds	607	623
Equity mutual funds	3,292	2,999
Money market funds	20	182
Total	<u>\$ 6,264</u>	<u>\$ 5,961</u>

The Institute holds significant investments in the form of fixed-income and equity securities. Market risk is the risk of a decline in the fair value of the investment portfolio due to adverse financial market conditions. The Institute is exposed to market risk for the total amount of the investments.

NOTE 4 - FAIR VALUE OF INVESTMENTS

The Institute accounts for its investments at fair value. ASC 820, *Fair Value Measurements*, defines fair value, establishes a framework used to measure fair value, and expands disclosures about fair value measurements. This standard prioritizes, within the measurement of fair value, the use of market-based information over entity-specific information and establishes a three-level hierarchy for fair value measurement based on the transparency of information, such as the pricing source, used in the valuation of an asset or liability as of the measurement date.

Investments measured and reported at fair value are classified and disclosed in one of the following categories:

Level 1 – Quoted prices in active markets for identical investments as of the reporting date, without adjustment. The types of investments in Level 1 include listed equities held in the name of the Institute and exclude listed equities and other securities held indirectly through commingled funds.

Level 2 – Valuations based on inputs, including broker quotes, in markets that are not active or for which all significant inputs are either directly or indirectly observable for similar assets or liabilities as of the reporting date.

Braille Institute of America, Inc.
(A California Nonprofit Corporation)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

For the year ended June 30, 2017
(In Thousands)

NOTE 4 - FAIR VALUE OF INVESTMENTS - Continued

Level 3 – Valuations based on inputs that are both significant to the fair value measurement and unobservable, as they trade infrequently and therefore have little or no price transparency. These inputs into the determination of fair value require significant management judgment or estimation and typical investments of the category are privately held investments and partnership interests.

The determination of where an asset or liability falls in the hierarchy requires significant judgment. The Institute evaluates its hierarchy disclosures each reporting period and based on various factors, it is possible that an asset or liability may be classified differently from period to period. However, the Institute expects that changes in classifications between different levels will be rare.

The Institute's valuation methodologies used for mutual funds measured at fair value is based on NAV of shares held by the Institute at year end. There have been no changes in the methodologies used at June 30, 2017.

Mutual funds – Valued at the daily closing price as reported by the fund. The funds and accounts held by the Institute are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds and accounts are required to publish their daily net asset value (“NAV”) and to transact at that price. The funds and accounts held by the Institute are deemed to be actively traded. The money market funds are valued at the NAV of shares held by the Institute at year end. The funds attempt to stabilize the NAV of its shares at \$1.00 by valuing the portfolio securities using the amortized cost method. The funds calculate a market-based NAV per share on a periodic basis. The funds do not guarantee that its NAV will always remain at \$1.00 per share. Shares can be redeemed on a same day basis but only directly from the funds. Such transactions do not constitute an active market. Therefore, the funds are classified as Level 2.

Separately managed accounts – Valued at the daily closing price as reported by the investment manager. To the extent that they are actively traded at a securities exchange, they are valued at quoted prices from the applicable exchange and are classified as Level 1. To the extent that valuation adjustments are applied to these securities, they are classified as Level 2.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values.

Transfers in and out of levels are recognized as of the beginning of the reporting period. During the years ended June 30, 2017 and 2016, there were no transfers among Level 1, Level 2 or Level 3.

Furthermore, although the Institute believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

- (b) Equity – international – Comprised of mutual funds investing in equity securities of non-U.S. companies. While generally limited in their use, the funds may invest in derivative securities.
- (c) Equity – small-mid cap domestic – Comprised of mutual funds investing in common stocks of U.S. companies with market capitalizations similar to companies in the Russell 2500 Index.
- (d) Equity – large cap domestic – Comprised primarily of common stocks and mutual funds of U.S. companies with market capitalizations similar to companies in the Russell 1000 Index.
- (e) Equity – real estate – The Fund seeks to provide income and capital growth by investing primarily in publicly traded securities issued by real estate investment trusts.
- (f) Fixed income – domestic – Comprised of mutual funds investing in fixed income instruments of varying maturities issued primarily by U.S. public and private-sector entities and secondarily by non-U.S. entities. Fixed income instruments include investment grade bonds and high yield securities but may also be represented by derivatives including forwards, options, futures, swaps and asset-backed securities. Securities of varying maturities are permitted as well as those denominated in currencies other than the U.S. dollar.
- (g) Vanguard Balanced Index Fund seeks – with 60% of its assets – to track the investment performance of a benchmark index that measures the investment return of the overall U.S. stock market. With 40% of its assets, the fund seeks to track the investment performance of a broad, market-weighted bond index.

The following table presents the category, fair value, redemption frequency, and redemption notice period for Fund investments, the fair values of which are estimated using the NAV per share as of June 30:

NOTE 5 - CONTRIBUTIONS RECEIVABLE

Unconditional promises to give are included in the consolidated financial statements as contributions receivable and revenue of the appropriate net asset category. Certain promises to give are recorded after discounting, at the prime rate of 3.25%, to the present value of the future cash flows. At June 30, 2017, unconditional promises are expected to be realized in the following period:

In one year or less	\$ 755
Due between one and five years	1,430
Total	<u>2,185</u>
Less discount	(174)
Net receivable at June 30, 2017	<u><u>\$ 2,011</u></u>

No allowance has been recorded as of June 30, 2017 as the Institute expect to collect all outstanding receivable.

NOTE 8 - TAX-SHELTERED SAVINGS PLAN

Effective April 1, 1990, the Institute adopted a tax-sheltered savings plan for its employees. Employees may defer up to \$17.5 annually. The Institute will match 100% of the participant's deferral amount up to \$2.4. Participants are 100% vested in their contributions, the Institute's matching contribution and the non-elective contribution. The Institute's year to date accrued contribution was \$387 and \$409 for the years ended June 30, 2017 and 2016, respectively.

NOTE 9 - RETIREMENT PLAN

The Institute has a defined benefit retirement plan (the "Plan") that covers substantially all of its employees. The benefits are based on years of service and the employee's compensation during employment.

The Plan was frozen to future benefit accruals effective January 1, 2008. All active participants as of January 1, 2008 are 100% vested in their normal retirement benefit, if eligible.

Amounts related to defined benefit plans recognized in the consolidated financial statements are determined on an actuarial basis. Three of the more critical assumptions in the actuarial calculations are the discount rate for determining the current value of plan benefits, the assumption for the rate of increases in future compensation levels and the expected rate of return on plan assets.

Funded Status

An accumulated pension asset measured against the obligation for pension benefits represents the funded status of a given plan. The funded status of the Institute's sponsored defined benefit plan is presented in the table below as of June 30, 2017 and 2016:

	2017	2016
Change in benefit obligation		
Benefit obligation at beginning of year	\$ 46,141	\$ 41,704
Interest cost	1,508	1,726
Actuarial (gain) loss	(1,955)	6,392
Benefits paid	(2,207)	(3,681)

Assumptions

Assumptions used to determine benefit obligation at June 30:

	2017	2016
Discount rate	3.75%	3.35%
Rate of compensation increase	N/A	N/A

Weighted-average assumptions used to determine net periodic benefit cost for years ended June 30:

	2017	2016
Discount rate	3.75%	3.35%
Expected long-term return on plan assets	4.75%	5.75%
Rate of compensation increase	N/A	N/A

Plan Assets

The primary investment objective of the Plan is to generate a long-term rate of return on assets that exceeds selected performance benchmarks for each asset category and the expected rate of return used in the valuation of the benefit obligation. The assumed rate of return on Plan assets represents an estimate of long-term returns available to investors who hold a mixture of equities and fixed income securities and considers returns on comparable asset classes (both historical and forecasted).

Investment allocation as of June 30, is as follows:

	2017	2016
Equity securities	-	22%
Fixed income securities	100%	78%
	100%	100%

The Plan may invest in equities and fixed income assets, subject to standards of fiduciary prudence for a defined benefit pension plan portfolio. The current long-term investment allocation is 100% fixed income. Investments are diversified according to economic sector, industry, number of holdings and other investment characteristics to minimize risk exposure.

The Institute was not required to make a contribution to the Plan for fiscal year ended June 30, 2017.

NOTE 10 - CHARITABLE GIFT ANNUITY FUND

The Institute offers a charitable remainder annuities program for those who desire to donate. Institute annuities are written under authority granted to it by the Insurance Commissioner of the State of California. Annuity assets are held by a bank trustee with a reserve adequate to meet estimated future payments under its outstanding annuity contracts. Payments are made from these assets to the annuity beneficiary in accordance with the contract. The gift annuity liabilities are based on the present value of future payments. Due to the separate entity concept inherent in these types of gifts, the Institute produces separate financial statements for this fund. However, the Institute is required to reflect its beneficial interest in annuity contracts in its consolidated financial statements.

NOTE 11 - ENDOWMENT FUNDS

In August 2008, the FASB issued new accounting guidance on endowments of not-for-profit organizations within ASC 205. This guidance provides for not-for-profit organizations on the net asset classifications of donor-restricted endowment funds subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006 (“UPMIFA”). In addition, the guidance requires enhanced disclosures for all endowment funds. California adopted UPMIFA effective January 1, 2009. The Institute adopted the accounting standard for the year ended June 30, 2009. There is no impact of the adoption as the Institute has historically recognized all investment income into temporarily restricted net assets and releases the restriction as amounts are spent.

NOTE 11 - ENDOWMENT FUNDS - Continued

The Board of Directors has interpreted UPMIFA as requiring the preservation of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Institute classifies as permanently restricted net assets, (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund.

The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Institution in a manner consistent with the standards of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Institute considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the fund
- The purposes of the Institute and the donor-restricted endowment fund
- General economic conditions
- The possible effect of inflation and deflation
- The expected total return from income and the appreciation of investments
- Other resources of the Institute
- The investment policies of the Institute

The following is the endowment net asset composition by type of fund as of June 30, 2017:

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Donor-restricted endowment funds	\$ 3,721	\$ 1,284	\$ 23,903	\$ 28,908
